Many of our customers requested a product suitable for use over the whole body. Now you can get safe, gentle results with our luxurious Body Milk formula. Our new Insta-Brite™ technology gives people of all skin tones a natural brightening effect from the very first application. And the best part is that you control the amount of effect that you want. Just apply more or less as desired. With continued use, the active ingredients work with your skin to provide long lasting results and even out skin tones.
